

Required Pages and Content Outline for Each Page:

Home:

- I will include a professional picture of myself with a polo shirt on.
- I will include hobby summaries on my interests of traveling and watching sports, and I will include accompanying pictures for these hobbies.
- My home page will also feature a welcome video explaining who I am, my interests, and my aspirations in the future.
- My home page will also include a professional introduction, an overview of myself and my website, and my goals for the future.

Hobbies:

- I will go further in depth about my hobbies of traveling and watching sports, and I will share personal experiences with these interests.
- I will include at least three pictures (likely more) about my hobbies and interests. These will entail monuments and places I've traveled to and sports memorabilia for my hobby of watching sports.
- My hobbies section will further explain why these hobbies are important to me.

Discover:

- I will explain why I chose UMD to further my education, what I like about UMD and the Duluth area, and my personal stories and experiences on campus.
- For my 30-second UMD marketing video, me and my teammates will create an AI-generated video to highlight the campus and the areas/landmarks around Duluth.

Resume:

- I will create a web-formatted version of my resume and ensure there is a download button for a PDF version of the resume. My resume is attached to this quiz in the following question.

Career Interests:

- The two companies I am interested in working for, and will list on my website, are the Conway, Deuth, & Schmiesing accounting firm and Christianson CPAs and Consultants.
- I will explain their job/internship opportunities, why I like the opportunities, what makes me qualified for the opportunities, and how my skills and interests align with the positions.

Game for Website:

- For the interactive game page, me and my teammates will create an air hockey game for users to play on the website.
- We will ensure the game is engaging and demonstrates JavaScript skills.

Color Scheme and Design Theme Ideas for Website:

- What I am likely doing for a color scheme and a design theme for my website is having a blue color scheme along with a contrasting color that won't make the website look overwhelming.
- I will also ensure a clean layout and design to ensure readability, and I will make the aesthetics of the website appear well-balanced with each other.
- My color scheme and design theme will appear professional as users read about me.

Timeline for Completing Each Section:

- Timeline is Tentative at the Moment
