

Company Interest Statement:

The first company that intrigued me was Christianson CPAs & Consultants, who is offering an Accounting Internship for 2026. I believe that my skills, experiences, and qualifications make me a qualified candidate for that role, as I am an accounting major looking to develop my skills and experience in accounting. Some needed skills for the internship are contributing ideas and perspectives to the Christianson team and networking with Christianson staff, and I am eager to contribute ideas and network with an accounting firm. Additional qualifications for the internship include having excellent analytical and interpersonal skills and having a strong skillset. My skills align with the job description as I have excellent analytical and attention-to-detail skills, and I also have a strong skillset overall to assist Christianson staff. Other qualifications include demonstrating good project planning skills, time management skills, and effectively working in a complex team environment. This aligns with my skillset as I believe I plan and manage my time efficiently, and I have experience working in complex team environments. Overall, I believe my skills, experiences, and aspirations make me a qualified candidate for the Christianson CPAs & Consultants Accounting Internship for 2026.

The second company that intrigued me was Smith Schafer & Associates, who is offering Tax Internships for Spring 2026 or Spring 2027. I believe my skills, experiences, and qualifications make me a qualified candidate for this role, and I am particularly interested in tax accounting within the field of accounting. Furthermore, an internship for the Spring would be greatly beneficial, as it is during tax season with a great deal of work to complete during tax season. Requirements for the internship include strong technical, analytical, and organizational skills, and my skillset greatly aligns with the technical, analytical, and organizational skills needed for the internship. Proficiency in Excel is also needed, which I have from various classes
